EDUCATION

Rutgers University

Bachelor of Science in Computer Science, Minor in Business Administration and Data Science

New Brunswick, NJ

Sep 2024 – May 2028

- GPA: 3.5 | Honors College | Dean's List
- Relevant Coursework: Linear Algebra, Data Structures, Honors Computer Architecture, Discrete Structures I

EXPERIENCE

American Express

AI Fellow, Break Through Tech AI Studio

Sep 2026 – Dec 2026

New York, NY

- Building **credit risk** models on consumer-loan data to predict applicant **default probability**, benchmarking **logistic regression**, **random forests**, and **gradient boosting (XGBoost, LightGBM)** against a production baseline
- Evaluating with **ROC-AUC**, **LogLoss**, and **calibration** on a time-based holdout; translating predicted risk into profit-aware lending decisions under a defined **cost model**

New Brunswick Parking Authority

Data Engineer

Jun 2026 – Present

New Brunswick, NJ

- Building automated **Python + Pandas ETL pipelines** over daily revenue **time series**, cutting manual reporting time by **99%+**, saving **500+** hours a year
- Architecting a normalized **relational database** to replace Excel-based revenue tracking, working directly with the **CFO** and **Executive Director** to model multi-facility **financial transaction data**
- Implementing data validation, role-based access, and audit trails to strengthen **data integrity**, and designing **internal tools** surfacing live revenue metrics and trends

IPser Labs

Product Manager + AI/ML Software Engineer

Jan 2026 – May 2026

Fort Worth, TX

- Led a team building core components of a provisional **patent-backed** system for structured video conferences
- Spearheaded dynamic **React** interfaces and backend logic for role-based conversation flows, delivering up to **25%** higher system efficiency

Rutgers University Digital Classroom Services (RU DCS)

IT Support Engineer

Jan 2025 – Present

Piscataway, NJ

- Resolving cross-platform hardware, software, and network issues across **15+** buildings serving **10,000+** daily users, and deploying updates with system administrators

PROJECTS

VoxIQ: Adaptive Accessibility Assessment [\[GitHub\]](#) | Python, MySQL, OpenCV, MediaPipe, PyAutoGUI, Pytsx3

- Engineered an adaptive **evaluation platform** scaling difficulty from live performance data, with a touchless **OpenCV + MediaPipe** gesture interface
- Won a **National Award** at a national Science and Technology Exhibition

HerLaunch: AI-Powered Startup Incubator [\[Devpost\]](#) | React, TypeScript, Supabase, Gemini & Fiserv API, Figma

- Built a **full-stack** platform in a 24-hour hackathon with a mentor-mentee matching algorithm
- Integrated **Gemini** for AI-driven pitch feedback and secure **payments** via the **Fiserv API** on a **Supabase** backend

TECHNICAL SKILLS

Languages: Python, Java, C, SQL, JavaScript, TypeScript, R, HTML/CSS

Quantitative & ML: Pandas, NumPy, Scikit-learn, XGBoost, LightGBM, TensorFlow, Matplotlib, ETL Pipelines, Time-Series Analysis

Frameworks & Tools: React, Next.js, Node.js, FastAPI, Django, Streamlit, Git, GitHub, Docker, Jupyter, Jira

Databases: MySQL, PostgreSQL, Supabase

Concepts: Data Structures & Algorithms, OOP, REST APIs, ETL, Unit Testing, Debugging, Code Review, Agile, CI/CD, Data Engineering

CERTIFICATIONS

Machine Learning Foundations, Cornell Tech (Break Through Tech AI) | **Machine Learning and Image Processing**, Cisco
